

## SDW-989W1-M8L-I50-S0-L1-PRD

#### SHADOWSENSE PRO PRODUCT DATA SHEET

The Baanto 98.9" class ShadowSense™ Pro based touchscreen delivers innovative, high performance multi-touch capabilities for large format displays. This is the perfect multi-touch solution for digital out-of-home (DOOH) and large format interactive applications.

Baanto ShadowSense™ requires no drivers or touch detection applications running on the host CPU making this technology an outstanding solution for cost sensitive applications using low power CPU's and media players.

The following operating systems are supported:

- Windows XP® / XPE®
- Windows Vista®
- Windows 7<sup>®</sup> / 7 Embedded
- Windows 8®/8 Embedded
- Windows 10<sup>®</sup>
- Linux®
- Mac OS®
- Android™

An industry first, the Baanto Configuration Dashboard provides customers the ability to easily implement and modify the touchscreen behavior. The Dashboard allows the user to adjust the performance and touch characteristics of the touchscreen to provide spurious touch and palm rejection, debris and static object recognition, rain and fluid cancellation, and touch object characterization.

A perimeter based sensor design decouples the touch function from the protective glass providing improved optical and environmental performance, and better immunity to surface debris and scratches.

Targeted at large format applications in DOOH, interactive signage and other large format applications, the worldwide agency approvals and certifications simplify your integration and product approval efforts.

### 1.0 Features

- Up to ten multi-touch points available
- High Performance
  - Exceptional accuracy
  - No ghosting or dead zones
  - Outstanding ambient light rejection
  - Excellent size detection
- Fully featured
  - Real-time touch area data provided for all touch points
  - Static object detection and rejection
  - Continues to function with debris on the screen
  - Configurable hover distance for touch detection
  - Configurable spurious touch and palm rejection
  - Power saving idle mode
  - Wakeup on touch input
- No drivers or touch detection processes on host CPU
  - USB HID interface to host
  - Plug and Play
  - Windows® 7, 8 and 10 compliant packet formats
- Rigid frame design
  - Easy Assembly
  - Calibration free
  - Mechanically and thermally stable

# 2.0 Specifications

| Description                          | Value   |
|--------------------------------------|---|
| Size                                 | 98.9" Diagonal  |
| Aspect Ratio                         | 16:9  |
| Number of Touches                    | 10  |
| Average New Touch Detection Latency* | < 14.5 ms   |
| Touch Reporting Latency*             | < 5 ms  |
| Accuracy*                            | < 3.3 mm over 90% of active area  |
| Touch Resolution                     | 12 Bit X, 12 Bit Y  |
| Touch Hover Distance                 | Can be controlled from 2mm – 5mm  |
| Finger Separation Distance           | 30mm  |
| Sub pixel Resolution                 | 4K  |
| Data Interface                       | USB 2.0 (Full Speed) HID,<br>compatible with USB 1.1 port,<br>HID compliant<br>USB A Type Receptacle<br>Can also be plugged into a USB 3.0 port<br>RS-232 |
| Touch Method                         | Finger, gloved hand or any other pointer.<br>Stylus minimum 4mm tip   |
| Touch Activation Force               | No pressure required  |
| Touch Durability                     | Unlimited   |
| Ambient Light Rejection              | Up to full sunlight   |
| Mean Time To Failure (MTTF)          | More than 200,000 hours   |

<sup>\*</sup>Detailed reports available

#### 3.0 Parts List

The System consists of the following components:

- Left Light Bar (LPLB-123-487-S2-000)
- Right Light Bar (LPLB-123-487-S1-000)
- Bottom Light Bar (LPLB-212-860-L0-000)
- Top Sensor Bar (LPS8-989W1-M8L-RX.X-000)
- Fastener Kit (FAST-KIT-LP01)

### 4.0 Power Supply Specifications & Current Measurements

The SDW-989W1-M8L requires a 12V DC switch mode power supply. The power supply is not shipped with the touch screen. The customer can always choose a power supply that meets the following requirements:

| Output Requirements                           | Values   |
|---|--|
| Output Voltage                                | 12 V   |
| Output Regulation (Load Regulation)           | 11.4 V to 12.6 V (±5%)                                       |
| Minimum Value of Max Rated Output Current     | 1.0 A  |
| Short circuit protection                      | Output shuts down or auto restarts                           |
| Output Connector Inner I.D. Outer I.D. Length | 2.5 mm Female 2.1 mm ± 0.1 mm 5.5 mm ± 0.1 mm 10 mm ± 0.5 mm |
| Output Plug polarity                          | $\ominus$ — $\bullet$ — $\oplus$                             |

Recommended power supply can be ordered from Digi-Key by the manufacturer Phihong USA. For ordering purposes the Manufacturer PN is **PSAC12R-120** and the Digi-Key PN is **993-1359-ND**. The Adapter plugs are bought separately. Digi-key P/N for US Adapter Plug is **993-1054-ND** and European Adapter Plug is **993-1057-ND**.

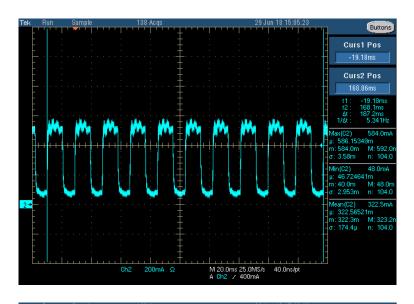

On the next page are screen shot of the current measurements for the SDW-989W1-M8L on the 12V supply line. All measurements where done with the default configuration.

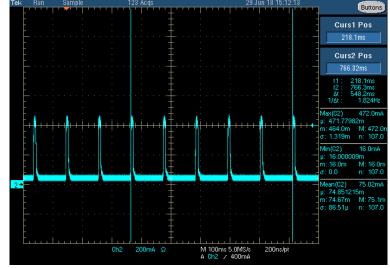

### 4.1 Active Mode

| Parameter                       | Current<br>(mA) | Power<br>(mW) |  |
|---------------------------------|-----------------|---------------|--|
| Average<br>Current<br>(Typical) | 322.5           | 3870          |  |
| Max<br>Current                  | 584.0           | 7008          |  |
| Min<br>Current                  | 48.0            | 576           |  |

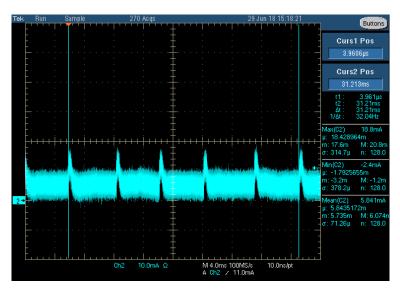

### 4.2 Idle Mode

| Parameter                       | Current<br>(mA) | Power<br>(mW) |  |
|---------------------------------|-----------------|---------------|--|
| Average<br>Current<br>(Typical) | 75.02           | 900           |  |
| Max<br>Current                  | 472.0           | 5664          |  |
| Min<br>Current                  | 16.0            | 192           |  |

### 4.3 Sleep Mode

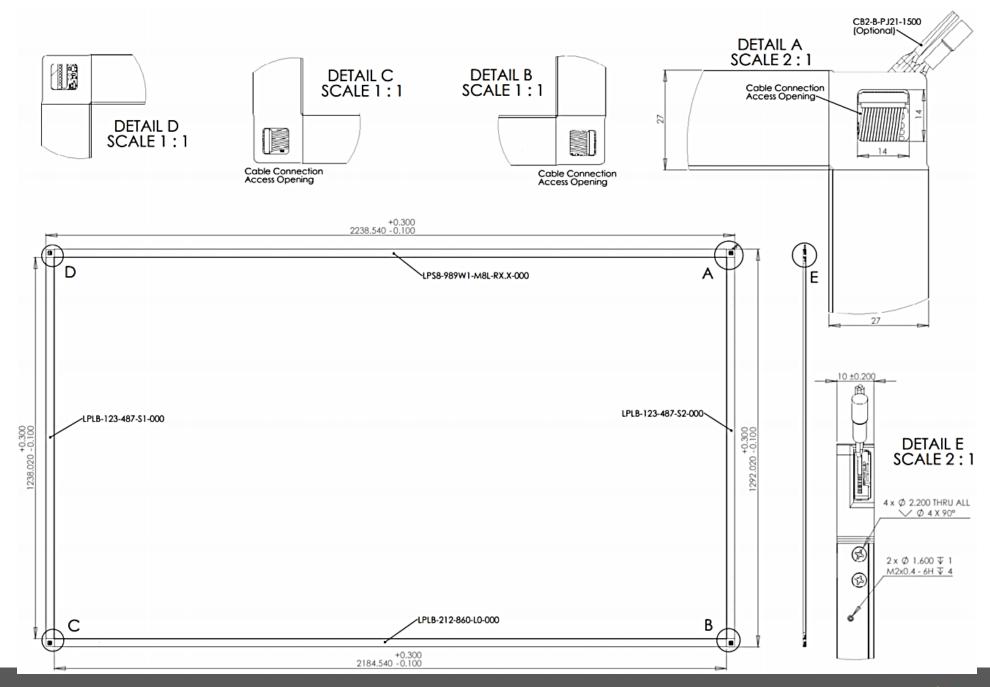

| Parameter                       | Current<br>(mA) | Power<br>(mW) |  |
|---------------------------------|-----------------|---------------|--|
| Average<br>Current<br>(Typical) | 5.841           | 70            |  |
| Max<br>Current                  | 18.8            | 226           |  |
| Min<br>Current                  | -2.4            | -29           |  |

## 10.0 Packing Information

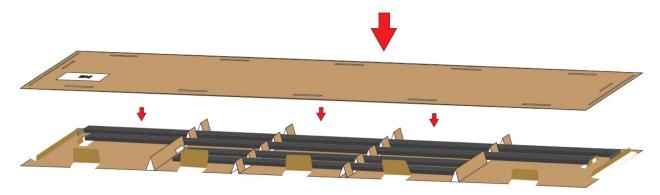

Each of the bars is individually packaged in a plastic poly bag of various lengths (2 & 3). A single desiccant pack (1) is provided within each plastic bag.

| Bar                     | Weight |
|-------------------------|--------|
| LPS8-989W1-M8L-RX.X-000 | 500 g  |
| LPLB-123-487-S2-000     | 495 g  |
| LPLB-123-487-S1-000     | 295 g  |
| LPLB-212-860-L0-000     | 295 g  |
| TOTAL                   | 1585 g |

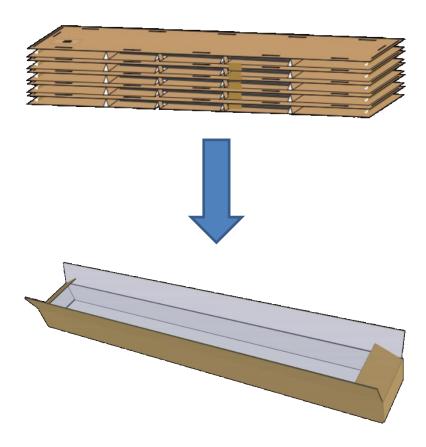

\*Weight without cable

The four bars form a single unit and are placed in a sleeve. Fastener Kit (FAST-KIT-LP01) and Cable Harness Kit (CB2-B-PJ21-1500) are included inside the sleeve.

Five complete touch screen systems are included in a single Master Carton.

| Description   | Length  | Width  | Height | Weight  |
|---------------|---------|--------|--------|---------|
| Inner Sleeve  | 2285 mm | 227 mm | 20 mm  |         |
| Master Carton | 2295 mm | 237 mm | 110 mm | 15.5 kg |

### 11.0 Ordering Information

Order the 98.9" touch screen from Baanto using the Part Number stated below. The description of each field within the part number is shown below. As more options become available then the list below will be updated. There is a minimum order quantity of 5 units.
